SHIFT

PROGRESSIVE PUMP TECHNOLOGY

- Powered by the stainless steel version of the energy-efficient Pro-Flo SHIFT Air Distribution System (ADS)
- Pro-Flo® SHIFT ADS automatically optimizes air consumption and eliminates costly overfilling of the air chamber
- Up to **60% savings** in air consumption over competitive AODD pump technologies means greater yield per SCFM used
- Easy to maintain with the fewest ADS parts of any AODD pump competitor
- Mechanically actuated meaning it's submersible, has no electronic parts, requires no additional configuration or complicated curves
- 3-A, EHEDG, 1935/2004/EC, CE, and ATEX available on some models

Simple. Reliable. Efficient. And now, Hygienic.

Wilden's Pro-Flo SHIFT Air Distribution System (ADS) offers sustainable value by providing the most efficient pump in its class. The patent-pending Pro-Flo SHIFT Air Control Spool automatically adjusts to varying system parameters to reduce energy consumption by eliminating over-filling of the air chamber. Best of all, Pro-Flo SHIFT is easy to use... just **"Plug, Pump, and Save."**

WILDEN®

For hygienic applications, Wilden's revolutionary new stainless steel Pro-Flo SHIFT offers unmatched efficiency and the fastest return on investment. Pro-Flo SHIFT optimizes AODD pump efficiency while maximizing product yield by addressing a number of crucial areas of performance including:
