**HYGIENIC TO A WHOLE NEW LEVEL.**

Introducing the world’s most energy-efficient sanitary pump in its class. Period.

Wilden’s Pro-Flo SHIFT Air Distribution System (ADS) offers sustainable value by providing the most efficient pump in its class. The patent-pending Pro-Flo SHIFT Air Control Spool automatically adjusts to varying system parameters to reduce energy consumption by eliminating over-filling of the air chamber. Best of all, Pro-Flo SHIFT is easy to use… just “Plug, Pump, and Save.”

• Powered by the stainless steel version of the energy-efficient Pro-Flo SHIFT Air Distribution System (ADS)
• Pro-Flo® SHIFT ADS automatically optimizes air consumption and eliminates costly overfilling of the air chamber
• Up to 60% savings in air consumption over competitive AODD pump technologies means greater yield per SCFM used
• Easy to maintain with the fewest ADS parts of any AODD pump competitor
• Mechanically actuated meaning it’s submersible, has no electronic parts, requires no additional configuration or complicated curves
• 3-A, EHEDG, 1935/2004/EC, CE, and ATEX available on some models

See the proof at profloshift.com/proof
For hygienic applications, Wilden’s revolutionary new stainless steel Pro-Flo SHIFT offers unmatched efficiency and the fastest return on investment. Pro-Flo SHIFT optimizes AODD pump efficiency while maximizing product yield by addressing a number of crucial areas of performance including:

<table>

PERFORMANCE

UP TO 69% INCREASE IN PRODUCTIVITY VS. THE COMPETITION USING THE SAME COMPRESSOR

EFFICIENCY

UP TO 60% REDUCTION IN AIR CONSUMPTION

R.O.I

UP TO $4,800 ANNUAL SAVINGS PER PUMP
